Create
About
Choose an Infrastructure
IBM Cloud
Create, manage, and access your storage in globally available data center locations. Public cloud environments are designed for high durability, resiliency and security. IBM-managed infrastructure automatically scales to businesses needs.
Satellite
Utilize infrastructure from on-premise data centers, at other cloud providers, or in edge networks as a Satellite location to IBM Cloud. Deploy, manage and control app workloads with IBM Cloud Object Storage on client-managed infrastructure.
Select a pricing plan
Displayed prices do not include tax. Monthly prices shown are for country or region:India
Warning You can have only one instance of a Lite plan per service. To create a new instance, delete your existing Lite plan instance.

Buckets
Buckets serve as containers for objects, and can be individually configured in terms of their location, resiliency, billing rates, security, and object lifecycle rules.

Buckets
Get started by creating a bucket to store unstructured data. A bucket is a container for your data.
